- Performs **basic networking skills** like **crimping** and **mapping** to ensure the effectiveness of LAN cables
- **Monitors** the performance of the **system** and identifies the down servers
- Setting up equipment for employee use, performing or ensuring proper **installation** of **cables, operating systems, or appropriate software**, and performing **minor and major repairs to hardware, software**, or peripheral equipment, following design or installation specifications.
- Knowledgeable in organization structure and its tasks and responsibilities

CERTIFICATES

Microsoft Certified: Azure Fundamentals (AZ-900)

Dec 2024 - Present

Credential ID: D0F335CB870DA012

- **Cloud Concepts:** Proficient in the basics of cloud computing, including understanding IaaS, PaaS, and SaaS models, as well as scalability, elasticity, and high availability principles.
- **Azure Core Services:** Knowledgeable in key Azure services such as Virtual Machines, App Services, Azure Functions, and Storage solutions (Blob, Table, Queue, File).
- **Networking and Security:** Understanding of Azure Virtual Networks (VNETs), Network Security Groups (NSGs), Azure Firewall, and Azure Active Directory for Identity and Access Management (IAM).
- **Cost Management and SLAs:** Skilled in utilizing the Azure Pricing Calculator, managing cloud costs, and understanding Service Level Agreements (SLAs) for Azure services.
- **Monitoring and Compliance:** Familiar with Azure Monitor, Azure Security Center, and Azure compliance offerings (e.g., GDPR, HIPAA) for governance and security.
- **Management Tools:** Experienced in navigating the Azure Portal, leveraging Azure CLI and PowerShell for management, and utilizing the Azure Resource Manager (ARM) for resource configuration.

CompTIA Network+

Oct 2024 - Oct 2027

Verification Code: 8C18WJ4YY1Q1QTWJ

- **Networking Concepts:** Proficient in the fundamentals of networking, including understanding protocols (TCP/IP, DNS, DHCP), OSI and TCP/IP models, and network topology and design.
- **Infrastructure:** Knowledgeable in configuring and managing network devices such as routers, switches, and wireless access points, as well as cabling, connectors, and Ethernet standards.
- **Network Operations:** Capable of monitoring and optimizing network performance, implementing best practices for business continuity, and using network management and diagnostic tools.
- **Network Security:** Skilled in identifying and mitigating security risks, implementing secure protocols, and applying best practices for network security to protect data integrity.
- **Troubleshooting and Tools:** Experienced in troubleshooting network connectivity, device, and configuration issues, utilizing diagnostic tools to resolve network problems.
- **Cloud and Virtualization:** Understanding of cloud services, virtualization concepts, and network storage solutions relevant to modern networking environments.

CompTIA IT Operations Specialist (CIOS)

Oct 2024 - Oct 2027

Credly Link: <https://www.credly.com/go/83xfDPnBQj2QkwNILIfG5A>

- **Hardware and Networking:** Knowledgeable in the setup, configuration, and troubleshooting of PC hardware, mobile devices, and network components. Proficient in basic networking concepts, including protocols, IP addressing, and network troubleshooting.
- **Operating Systems and Software Support:** Experienced with installation, configuration, and maintenance of various operating systems, including Windows, macOS, Linux, and mobile OS environments. Skilled in resolving software and application issues.
- **IT Security Fundamentals:** Familiar with basic security protocols, recognizing and addressing vulnerabilities, and implementing security best practices across hardware and software.
- **Technical Troubleshooting:** Able to diagnose and resolve issues related to hardware, software, and network devices, ensuring system functionality and performance.
- **Operational Procedures and Best Practices:** Understanding of IT operational standards, including documentation, safety protocols, environmental considerations, and effective communication strategies within an IT setting.

CompTIA A+

July 2024 - Oct 2027

Verification Code: T5T678HZP1QE1B5G

- **Hardware:** Installation, configuration, and troubleshooting of PCs, mobile devices, and other hardware components.
- **Networking:** Understanding of basic networking concepts, including protocols, networking devices, and tools.
- **Operating Systems:** Installation, configuration, and maintenance of Windows, macOS, Linux, and mobile OS environments.
- **Security:** Identification and mitigation of security vulnerabilities and threats, implementation of best practices.
- **Software Troubleshooting:** Diagnosing and resolving software, application, and operating system issues.
- **Operational Procedures:** Best practices in IT operational procedures, including safety, environmental impacts, and communication skills.

EDUCATION

Full Stack Development Bootcamp

Jul 2022 - Jan 2023

StackTrek Inc, Iloilo City, Philippines

- Writes a fully functional website application that performs **CRUD** endpoints on **PERN** stack
- Solving coding problems testing fundamental skills in **Python**, **JavaScript**, **Nodejs**, **Express**, and **PostgreSQL**
- Trained **debugging** and analytical skills for future encounters in the industry
- Deep comprehension of collaborative platforms such as **Github**, **Git** as productive means, and website deployment platforms such as **Heroku** and **Vercel**.
- Branching out to other CSS frameworks such as **Bootstrap** and **Tailwind CSS**
- Developed personal portfolio/website to master Front end skills using **HTML5**, **CSS3**, and Vanilla **JavaScript**

Bachelor of Science (B.S.) - Information Technology

Jun 2016 - May 2020

University of San Agustin, Iloilo City, Philippines

- **Mobile app development** using **Android Studio** and **Java**
- **Basic networking skills** such as **Crimping**, **Troubleshooting**, **PTP File Transfer/Sharing**
- **Building computer desktop** from scratch with **hardware** and **software troubleshooting**
- Familiarization with computer parts, specifications, and the current trends and concepts in the market
- Developed educational mobile game using **Unity Engine** and **C#** as a programming language
- Knowledge in animating tools such as **Adobe Animate**, and graphic design tools like **Adobe Photoshop**
- Understanding **Front End Development** using, **HTML**, **CSS**, and **JavaScript**, collaborative design tools such as **Figma**, and **Adobe Dreamweaver** as a productive tool
